

## Hole plugs

Since many decades hole plugs have been used in different countries. They have following advantages:

- good sealing of the borehole
- protection against water, sand and dirt ingress
- bore holes are easy to detect
- easier and faster charging
- you can screw through the hole plug, it functions as splash guard
- while blasting the hole plug can safely stay in the bore hole
- the borehole can be covered with a lid

Material: plastic

Package unit: 1 piece

Whole carton

Price each 1 piece

Item No.	Ø Bottom (mm)	Ø Top (mm)	Length (mm)	Shape	Lid	Content each carton
